Ms. Ludmila Rastorgueva
Joint Stock Company "SVEZA Novator"
Novator, Veliky Ustug District
Vologda Oblast Region, 162350
Russia

Dear Ms. Rastorgueva:

This letter is in response to a written request from Joint Stock Company "SVEZA Novator" (SVEZA Novator) that we received on April 30, 2015 for Air Resources Board (ARB) re-approval to be an ultra-low-emitting formaldehyde resin (ULEF) manufacturer of composite wood products destined for sale, supply, or use in California. Your application includes a request for re-approval to manufacture hardwood plywood-veneer core (HWPW-VC) using a ULEF resin. We reviewed your request and supporting documentation, and found that the application is complete pursuant to section 93120.3(d) of the Airborne Toxic Control Measure (ATCM) to Reduce Formaldehyde Emissions from Composite Wood Products, title 17, California Code of Regulations, sections 93120-93120.12. We are pleased to inform you that your renewal application has been approved.

The enclosed Executive Order N-15-092 specifies ongoing conditions that must be met by manufacturers of ULEF products for sale, supply, or use in California. In addition, please note that all relevant provisions and requirements of section 93120.3(d), and other sections in the ATCM remain in effect. Section 93120.3(d)(5) specifies that the Executive Order issued to ULEF manufacturers has a duration of two years, and the manufacturer may apply for re-approval as provided in the section. At the appropriate time, you may address your application for re-approval to me at the address noted in the letterhead. Furthermore, section 93120.3(d)(7) requires ULEF manufacturers to notify ARB in advance if they decide to change resin systems, and comply with the requirements of section 93120.3(b) for that product type.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.

California Environmental Protection Agency
